VIDEO WORKSHOP FOR SCIENTISTS

HAMILTON,
TUES 8th MAY 2017
10am—2.30pm

Venue: University of Waikato

The Science Media Centre is hosting a workshop on communicating science in 90 second videos aimed at an online audience and leveraging platforms like Youtube and Vimeo.

Great short videos can be produced using the high-definition camera built into your smartphone or tablet. How can you harness this technology to bring your science to life? What are the best ways to shoot, edit and distribute your video content?

This workshop will answer all of your questions and introduce you to great tools that will help you in the video production process.

- WHY IS VIDEO SO POWERFUL?
- SCRIPTING AND STORYBOARDING SHORT VIDEOS
- FINDING IMAGES AND FOOTAGE
- DIY VIDEO – HARNESSING YOUR SMARTPHONE TO MAKE GREAT VIDEOS.
- SOFTWARE AND TOOLS YOU CAN USE
